## ARIA Inflight Entertainment

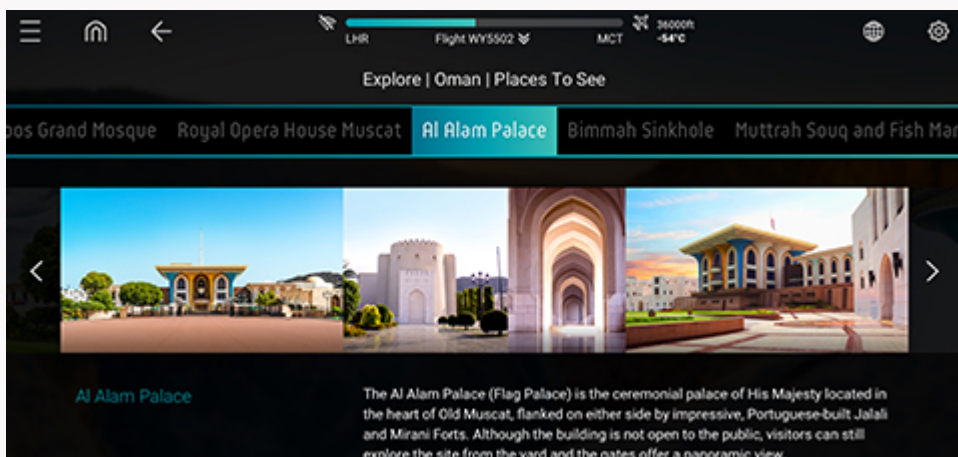

### Meet ARIA

Our newly designed entertainment system from Oman Air, presenting all the latest blockbuster titles, extensive library of TV box-sets, audio and games.

ARIA's interface reflects Oman's spectacular landscapes, warm hospitality and tranquil pace of life through the use of evocative colors and panoramic imagery. Intuitively control all your preferences and create playlists from Hollywood to world movies, classical to modern tunes to enjoy throughout your flight whenever you choose using your Touch Personal Media Unit (TPMU).

Explore a plethora of titles, unique travel videos and stories on Oman and Oman Air's growing network.
